PRESIDENT WILL GO BEFORE CONGRESS AND ASK FOR GREATER POWER IN PROTECTING U.S. SHIPPING

Submarine Menace Will Receive Attention When Nation's Chief Appears Before Joint Session Within Next Few Days, It Is Announced—No Declaration of War Contemplated in Requests.

EXTENSIVE MODIFICATION OF TERMS OF BRITISH BLOCKADE ARE ANNOUNCED

Washington, February 21.—(Associated Press dispatch)—President Wilson has practically decided to appear before Congress prior to adjournment March 4 to ask for additional authority to protect American seamen and American ships against the German submarine menace.

While officials said today there was a bare chance that he will not carry out the plans, there was every indication that he would make his address later this week or early next week.

The President's position, as outlined authoritatively today, is that before adjournment, Congress should pass a broad resolution giving him additional authority.

He has definitely decided what he will say to Congress, but that has not been made public.

Officials generally expect that sooner or later arms will be furnished to American ships.

In spite of the statements of the British Government that a very small percentage of vessels going to and from the war zone were being sunk by German submarines, officials pointed out today that most American vessels in the trans-Atlantic trade were still held up.

It was emphasized today that when the President appears before Congress he will not do so with the purpose of asking for a declaration of war.

MODIFICATION OF TERMS OF BRITISH BLOCKADE ANNOUNCED

London, February 21.—(Associated Press Cable).—An official proclamation modifying the terms of the British naval blockade was issued here today. It follows:

"A vessel which is encountered at sea, on the way to or from a port in a neutral country affording means of access to enemy territory, without stopping at port in British or Allied territory, until the contrary is established, shall be deemed to be carrying goods with enemy destination, or of enemy origin, and shall be brought in for examination, and, if necessary, adjudicated before a prize court.

"Second—Any vessel carrying goods with enemy destination, or of enemy origin, shall be liable to capture and condemnation in respect of the carriage of such goods; provided that in the case of any vessel which calls at an approved British or Allied port for an examination of her cargo, no sentence of condemnation shall be pronounced except on carriage of goods of enemy origin or destination, and no such presumption as laid down in Article 1 shall arise.

SUBMARINES SHATTER HOSTILE SHIPPING IN MEDITERRANEAN

Berlin, wireless to Sayville, L. I., February 21.—(Associated Press dispatch).—A large number of hostile vessels, among them an Italian transport crowded with men, have been sunk in the barred zone in the Mediterranean during the past few days, the Overseas News Agency announces.

Other ships sunk by submarines are enumerated by the news agency as follows:

"Two armed steamers, of 3,000 and 4,500 tons respectively, with important cargoes for Saloniki.

"Italian steamer Oceania, 4,200 tons.

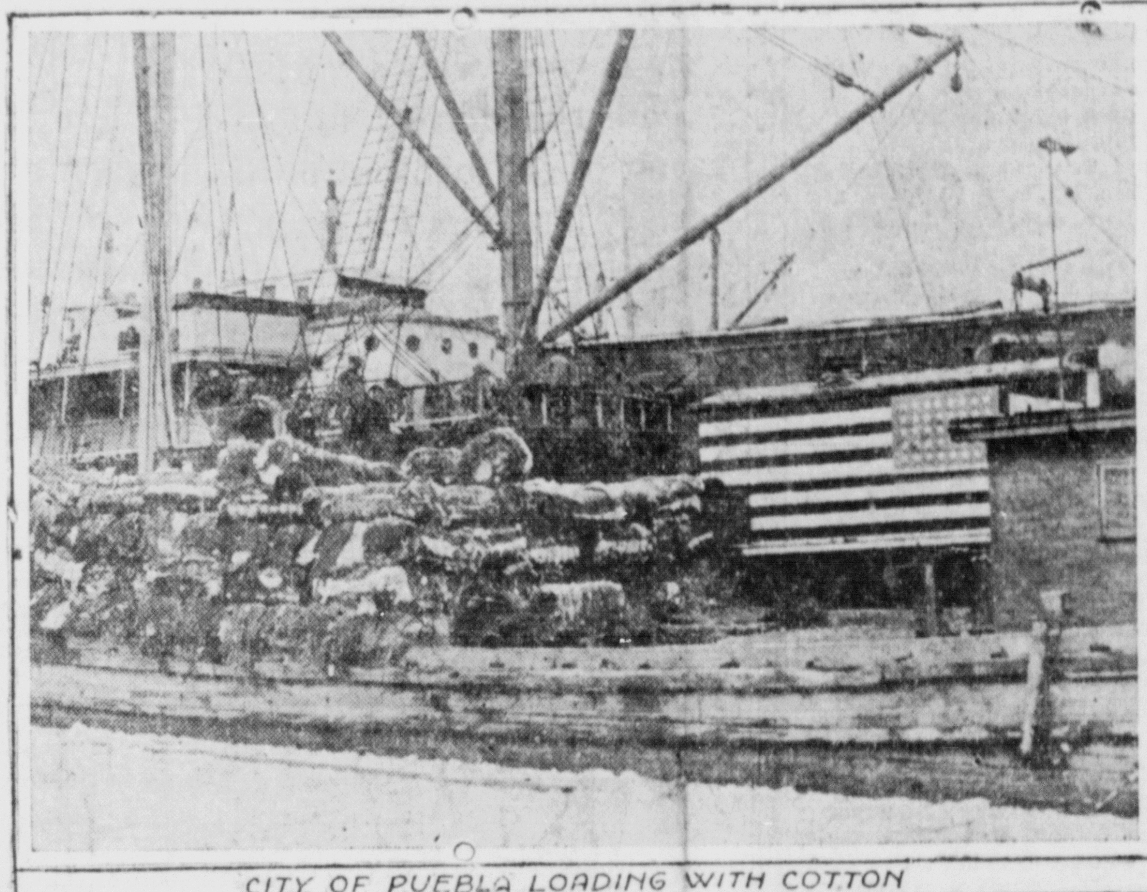

"French steamer Moventaux, 3,200 tons.

"French sailing vessel Aphrodite, 600 tons, with iron for Italy.

"The newspapers," observes the agency, "note that the real submarine successes undoubtedly have been much larger, as the majority of the submarines have not yet reported."

"In addition, the paralysis of neutral navigation must be taken into consideration."

AMERICAN FREIGHTER SAILS FOR HAVRE WITH CARGO OF COTTON FOR ALLIES

CITY OF PUEBLA LOADING WITH COTTON

The American freighter, the City of Puebla, sailed for Havre, defying the German war zone decree. She is owned by the Harvey Steamship company of 17 Battery Place, and was built at Cramps' yard in Philadelphia in 1881 for the Alexandre line, which operated a mail and passenger service between New York, Havana and Mexican ports.

The City of Puebla is of 2,624 gross tonnage, 320 feet 6 inches long and 38 feet 6 inches beam, has 26 feet 3 inches depth of hold and is a single screw steamship equipped with triple expansion reciprocating engines which give her an average speed of twelve to thirteen knots. The picture shows the City of Puebla loading with cotton. The American flag is painted

on her side. This makes five American freighters that have sailed from New York for Europe since the publication of the German note announcing the new submarine policy. The first was the Doehra, for Genoa. She was followed by the Rochester and the Orleans, both for Bordeaux, and the Oswego for Genoa. These ships are now approaching the war danger zone.

CONSULS HAVE QUIT GERMANY

U.S. Representatives and Families Arrive in Switzerland After Great Anxiety.

(Associated Press Cable.) Zurich, Switzerland, via Paris, February 21.—A score of United States consuls and government agents, with their families, reached Zurich last night, after having spent a more or less anxious week awaiting permission to leave Germany.

The arrivals consisted of forty-six persons who had gradually assembled in Munich, from which town they departed yesterday morning after the bulk of their baggage and papers had been examined.

The party arrived in two sections, the first warmly praising their treatment by the Germans, and the second containing members who complained bitterly over the enforced delay in their departure, and also of having been forced to leave behind them papers which the German authorities desired to submit to a more rigid censorship.

The majority of the travelers, however, reported that they had received studiously courteous treatment, and declared that the stringent regulations were nothing more than what was to be expected in view of the situation.

In several instances the arrivals told of special favors that had been shown them during the last week. So far as could be learned, none of the party had any information about the fate of the Yarrowdale prisoners and knew only of contradictory German press reports.

NO COMPENSATION FOR COLOMBIA AT THIS SESSION

By Associated Press Dispatch. Washington, February 21.—The Senate Foreign Relations Committee today determined that the long pending treaty to compensate Colombia for the partition of Panama could not be ratified at this session.

This decision was reached after President Wilson's letter urging ratification had been read.

Chairman Stone of the committee said he would make a formal statement later and make public the President's letter.

TORPEDOED

(Associated Press Cable.) London, February 21.—Lloyd's announces that the British sailing ship Centurion has been sunk. Her crew was landed.

The Centurion was a vessel of 1,825 tons, built in Glasgow in 1891. She was last reported as having sailed for London from Pensacola on December 31.

LEADERS REMOVED

(Associated Press Cable.) London, February 21.—An Exchange Telegraph dispatch from Amsterdam says it is reported from Vienna that Baron Hazai has been removed as Hungarian Minister of National Defense, Major General von Szurmayer having been appointed in his place.

This change, and also the removal from command of the Austro-Hungarian Army of Field Marshal Archduke Frederick, who has been made second in command to the Emperor, are reported to have been in consequence of a scandal in the army management, which was revealed recently at headquarters by the fact that large bodies of troops were without food for upwards of a day.

According to this report, the food intended for the troops was misapplied with full knowledge of the higher command.

The Emperor is said to have decided to proceed with any additional cases which are described as being of a sensational nature.

PLAN RELIEF FOR STARVING

By Associated Press Dispatch. New York, February 21.—After Mayor Mitchell had been informed by East Side housewives today that their children were "starving to death by

hundreds" because of the high cost of food, he promised to place before the Board of Estimate on Friday their plea that \$1,000,000 be appropriated by the city to buy food for redistribution at reasonable prices.

Three different committees representing East Side women were admitted to the mayor's office after an attempted demonstration by housewives at the door of the city hall was prevented by the police.

The Mayor said he did not believe the city government had authority to appropriate \$1,000,000 for the purpose the women requested; but pending the Board of Estimates decision, he would direct the Health and Charities Department immediately to send inspectors to the East Side to investigate conditions.

The women vigorously urged immediate relief measures.

They pointed out that the city has authority to buy food for patients in hospitals, and declared it had equal power to appropriate sums to be used to buy food for persons ill for want of nourishment.

DRYS WIN IN FIRST ROUND

By Associated Press Dispatch.

Washington, February 21.—Supporters of the Reed "bone dry" amendment to the postal bill won the first round of the wet and dry fight in the House today when a proposed amendment by Representative Saunders, of Virginia, which would have nullified the Reed proposal, was defeated 206 to 81.

The Saunders amendment would have made the Reed amendment apply only in states that now are "bone dry." In effect, then, this would not change the present situation in any state.

2000 KILLED AND WOUNDED

By Associated Press Dispatch.

Berlin, wireless via Sayville, L. I., February 21.—There were approximately 2,000 persons killed or injured in the recent railroad accident near Chirurha, in northern Roumania, according to the Moscow newspaper Russkoye Slovo, as quoted by the Overseas News Agency.

Five hundred persons were instantly killed, according to this account.

"The train jumped the track and the cars were telescoped," reads the summarized account as given out by the news agency.

Fire broke out at once in several places and a panic among the passengers ensued.

"Fathers and mothers pushed their children aside in their efforts to save themselves," says the Russkoye Slovo. "Men pushed women into the fire, women and men attacking each other with teeth and fingernails."

"Others lost their minds and ran into the burning cars. The ammunition on board the train began exploding, killing many persons."

An Overseas News Agency statement on January 28, based on accounts in the Russkoye Slovo, reported more than 100 Roumanians of high rank killed in the Chirurha train wreck. The train was carrying Roumanian refugees to Russia.

PERSHING SUCCEEDS FUNSTON

Is Formally Appointed Commander Southern Department U. S. Army.

By Associated Press Dispatch.

Washington, February 21.—Major General John J. Pershing was formally appointed commander of the Southern Department today succeeding Major General Frederick Funston.

The appointment will take effect immediately and does not require confirmation by the Senate.

There is considerable speculation as to who will be nominated Major General to take the vacancy in that grade in the line created by General Funston's death.

A process of selection is exercised in the promotion of army general officers, the seniority rule applying only to the grade of colonel and below.

Brigadier General Clarence R. Eward commanding in the canal zone, is ranking Brigadier General.

PLYMOUTH IS CLOSED

(Associated Press Cable.)

London, February 21.—It is officially announced that the port of Plymouth has been closed until further notice to all ships except those of the Allies.

All vessels entering the harbor are punishable under the defense of the realm regulations and liable to detention.

Plymouth is one of Great Britain's most important naval bases and the site of a great arsenal and vast dockyard.

VISITORS ARE PLEASED WITH THE BIG DISPLAY

130 Tempting Cakes a Feature of Domestic Science Display Which Miss Payne Judges Today.

AUTO SHOW SURPRISES ALL BY ITS MAGNITUDE

Arrangements Made to Entertain Thousands During Remainder of Week—More Awards Are Announced.

Dream of it! One hundred and thirty big, luscious cakes tempting the hungry one like gold tempts a thief—all right before your very eyes, and all representing the highest degree of skill attained by the peerless cooks of this city and county.

Again, dream of it! Then go and take a peep, for the 130 cakes were made to be seen and form just a portion of the monster domestic science display which is a leading feature of the corn and auto show at the tabernacle the remainder of this week.

In the domestic science department there are 256 entries, while in the domestic arts department there are 115, or a total of 371 entries in the two departments.

There are 82 entries in the bread classes, 24 in the doughnut class, 25 in the butter class, 17 in the fudge class, and a correspondingly large number of entries in the other classes while the domestic arts display is one of the best ever offered in this city or in this portion of Ohio.

Miss Anne McGregor Payne, of Columbus, one of the most capable domestic science judges in Ohio, arrived Wednesday morning and started the big task of placing the ribbons.

"I think the display is perfectly marvelous," declared Miss Payne as she paused a moment in a careful inspection of a tempting loaf of bread. Her eyes sparkled with satisfaction as she glanced over the row after row of cakes, stacks of bread and other displays of the department.

Miss Payne did not hesitate after she reached the scene of her work, but threw off her hat and cloak and plunged immediately into the huge

task before her, and which, it was expected, would require every moment of her time until late Wednesday evening.

A large audience is expected to hear Miss Payne lecture at the Tabernacle tonight at 8:30 o'clock, when she speaks on "Every Day Dietetics for the Housekeeper."

However a large portion of her lecture will be in the form of a discussion of the principles of testing or judging and how to obtain best results in baking cakes and bread. This part of her lecture will, to a large extent, be based on her findings in judging the exhibits in this city.

A large number of local women who know Miss Payne are looking forward to this lecture with a great deal of anticipation, knowing that it will be worth while in the fullest sense of the term.

Preceding Miss Payne's lecture the Washington Band will give a concert lasting one hour, and it is expected that a large crowd will fill the tabernacle throughout the evening.

The auto exhibits at the tabernacle are proving a genuine surprise to all who behold them, and virtually all the cars of latest pattern, handled in this county, are to be found in the show, and are given careful attention by the throngs, which are flocking to the tabernacle.

Auto exhibitors in the show include The Orman Motor Car Co.; Junk & Willett; Johnson Auto Sales Co.; Elroy Shobe and Chas. F. Bonham, and the display made by these dealers is highly creditable. Not an exhibitor but has as large an exhibit here as shown in Columbus.

The International Harvester Tractor occupies a big space. Other exhibits are made by James Brothers representing the Moline Tractor Co. and the Electric Shop, the Sears & Nichols Co., and J. W. Duffee.

The Welfare Association has an exhibit of deep interest and of much instructive value, located in the south end of the building.

Another display which is attracting large numbers is the Fayette Fish and Game Protective Association, located to the immediate left of the platform in the building.

Band concerts are featuring the show each morning, afternoon and evening, and the admittance to the entire show is 10 cents.

Thousands of persons are expected

to attend the show during the remainder of the week, and the Wednesday crowds were up to all expectations, and all visitors were greatly pleased with the mammoth display packed in the big building.

Wilbur Morris, of Clark county, made the greatest winnings of the show, carrying off sweepstakes, best single ear and first in best ten ears of yellow.

His prize winning single ear had won first in Iowa and Kentucky shows this winter, and he had refused \$25 for the one ear. The ten ears winning sweepstakes is valued at \$10 per ear, or \$100 for the ten.

F. E. Eichelberger, who won the Jefferson township cup, has twice previously won the handsome trophy.

The County Corn Cup, given by the Fayette Credit Bureau and which goes to the township making the largest percentage of winnings from percentage of entries made, will be awarded later this week. Perry township held the cup last year, being won by Carson & Sons.

The remainder of the prize winners in the corn show are:

GOOD RESULTS AT CHRISTIAN CHURCH

A packed house and a splendid sermon; two additions and five baptisms—was the record at the Christian church, Tuesday night.

Evangelist Tillock was at his best and had his congregation convulsed with laughter many times, during the course of his sermon, with his apt illustrations driving home his points with masterly strokes. His subject was "Conversion; what is it?" He stated that conversion meant a complete change in mind, heart, will, state and character and life of the individual and that unless all of these took place in the individual he was not converted. That when a man or woman is really converted even the cats and dogs will know it; that even the dumb creation is benefited by a truly converted person; that real conversion not only cleans up on the inside but on the outside as well; that when one is converted he will want to be neat, tidy and clean in dress and speech.

Tonight evangelist Tillock will use for his subject "The Question of Questions." The sermon will be extensively illustrated by a chart.

The public is cordially invited to the services.

BROTHERS MEET SIMILAR FATE

William Floyd, B. & O. engineer who was instantly killed when his engine struck a broken rail and rolled over into the ditch east of Cambridge, Ohio, about noon Tuesday, is the third of three brothers who met a similar fate.

One of his brothers was killed when his engine turned over at the Haines switch, near Madison Mills, some seven years ago, and the other met death in a very similar manner at another point on the road several years ago.

CRAIG BROS.

IT is a good thing for this Nation, and for all of us who are citizens of it, and for any who are not citizens, living in it, to be reminded at least once a year, of the great men who laid the foundations upon which a great National structure has arisen.

The Advent of Spring Suits

The opportunity to pry into the secrets of the Spring Fashions is presented in tomorrow's display of the new Suits in our Women's Wear Section.

Our earliest shipments have covered practically the entire range of accepted models, and nothing would afford us more pleasure than the opportunity to display them for you.

Spring Coats Are Here Too

Every one who has had a peep at them, pronounce them "STUNNING." They're so different from the styles of past seasons that we're not going to attempt a description of any one of them—we're simply going to state that a delightful surprise awaits you—and we invite you especially tomorrow to view these new coats.

Washington's Birthday

Each year the natal day of the "Father of our Country" is honored throughout the United States. Each year patriotic orders vie with each other in the effort to introduce something novel in the celebration of February twenty-second, and the time-honored hatchet and cherry tree figure prominently. Each year the history of the immortal George is recalled; his military successes extolled and his virtues exalted.

It is right that it should be so. Sad would be the day when patriotism reached such a low ebb that the nation would cease to be proud of and rejoice in this hero of 1776, "first in war, first in peace and first in the hearts of his countrymen."

But this year, with the war spectre rising grim and horrible across the waters and casting its shadow over our own America, Washington's birthday seems to be taking on fresh significance and patriotism rises in a floodtide in 1917 just as it did over a hundred years ago, when our forefathers followed the lead of the commander-in-chief of the Continental Army through perils and privations almost impossible to realize today.

Hopeful as is the nation that the war cloud will never break over the United States, it is a good thing for the people to stop in the constant hurry of the period long enough to cast a backward look to Revolutionary days and to raise the flag of our country in tribute to George Washington's courage and patriotism. It is a good thing that in the public schools the meaning of the anniversary is impressed upon the children and that this national holiday is shown due respect in the business world.

There are many pertinent lessons to be learned from the days of '76—those days of tattered uniforms and sufferings untold—and to George Washington, the man of action rather than of theory and of words, must be given perpetual honor for the free institutions of our country.

Finding the Colonies disconnected and dependent, he left them a united and well ordered commonwealth, the foundation stone upon which has been built the greatest and most powerful nation of the earth.

Many have been the eulogies written and spoken of the nation's first president, but nothing can more fully present the greatness of Washington than the simple statement that he used his power solely for the public good.

It is such a head that the nation needs in its crises and such leaders are the epoch makers.

The Cynosure

The center of attraction in European royalty at the present time is Karl I, the recently crowned Emperor of Austria and son of the late Francis Joseph.

King Karl, it would seem, has made up his mind to run his government to suit himself and not to be guided by the policies of his father, except wherein they conform with his own ideas.

His first move of consequence, and one which doubtless caused some uneasiness to Kaiser Wilhelm, was his dismissal of Premier von Korber. Dr. von Spitzmuller, succeeding Dr. von Korber, failed to form a Ministry.

The significant fact in this is that both are Germans. Baron Burian, Foreign Minister, a Tisza nominee, has likewise received his walking papers.

In the place of these, two Austrians have ascended to power, Count Czernin as Foreign Minister, and Count Clam-Martinic as Premier. Both were satellites of the assassinated Archduke Franz Ferdinand.

That the recent peace overtures of Germany came through Austria-Hungary's initiative is admitted. It is intimated that the Kaiser's sudden departure from Vienna on the eve of Francis Joseph's funeral resulted from a controversy with the new Emperor of the Dual Monarchy.

The influence of the long-powerful Count Tisza in Austrian politics has been characterized as "tottering" and his "unscrupulous oppression and corrupt and arbitrary methods," as expressed by the recently decorated Count Andrássy in the Hungarian Parliament, "nearing an end."

The new ruler is then, if these indications are to be relied on, in favor of an Austrian Austria and peace.

In the light of these events, the tense situation developing between Austria and the United States as a result of Germany's unrestricted submarine warfare avowed is regarded with increased interest.

Poetry For Today

THE WINNING WAY

If you put a little lovin' into all the work you do,
And a little bit of gladness, and a little bit of you,
And a little bit of sweetness and a little bit of song,
Not a day will seem too toilsome; not a day will seem too long;
And your work will be attractive, and the world will stop to look,
And the world will see a sweetness, like the tinkling of a brook,
In the finished job; and then the world will turn to look at you
With a world's appreciation of the thin you've found to do.

Just a little bit of lovin', and a little bit of song,
And some pride to sort of make it straight and true and clean and strong;
And the work that you're a-doin', pretty near before you know,
Will have set the world a-tinkin', and the little winds that blow
Will bring echoes of it to you, and you'll see that you have done
More than you had dreamed or hoped for when the task was first begun
And you'll find the bit of lovin' you have put into the same
Has come back to you in lovin', and come back to you in fame.

DEATH SUMMONS ESTEEMED WOMAN

After several months of serious illness and days in which the shadow of the death angel was never lifted, Mrs. Mary Blackmore widow of the late Charles Milton Blackmore, answered the eternal call soon after the noon hour Wednesday at the home of her daughter, Mrs. Chas. H. Davis, in Millwood.

Mrs. Blackmore was the last of her family. Born and raised in this county, northwest of town, she was a Fayette Countian in the most loyal sense and passed her entire life of 77 years here, except during visits abroad with her children.

She was one of those strong early women whose Christian faith and character and whose kindly disposition won the highest esteem and her friends were legion. She was a member of Mt. Olive church and active in its service as long as health permitted.

Beyond all other interests Mrs. Blackmore was devoted to her home and family and three daughters and one son have the sympathy of many friends in their loss.

The surviving children are Mrs. Emma Wright of Sabina; Mrs. Charles Swope, Lulu Davis, and Mr. Logan Blackmore of this city. They were all with their mother at the end. Funeral announcements will follow.

PERSONAL PARAGRAPHS.

Mr. David Sanderson and Mr. Addison Pavey, of Leesburg, were guests at the Mid-Winter Grain Carnival, Wednesday.

Mr. and Mrs. Elmer Cockerill, of Greenfield were guests here Wednesday.

Mr. Troyer, of Troyer Bros., LaFontaine, Ind., is one of the exhibitors attending the corn and auto show.

Miss Mazie Wynn who has been taking special treatment at the Fayette Hospital is much improved and left the hospital Wednesday.

Messrs. David Mornahan and Will Burris are Sabina visitors at the corn and auto show.

MILLING CO. INCREASES

By Associated Press Dispatch.

Columbus, February 21.—The Washington Milling Company of Washington C. H., Ohio, was incorporated here today with the Secretary of State for \$200,000.

The principal incorporators are H. B. Dahl, J. E. McLean and E. N. Holloway.

The new capitalization of The Washington Milling Company is just double the previous capitalization and is due to extensive growth of the business during the past few years, and the need of increased capital to further promote the big business done by the firm.

The other stockholders, in addition to those mentioned in the above report, are W. M. Campbell, T. H. Craig, W. W. Hamilton, Scott Hopkins, A. W. Massmore, W. E. McCoy, H. E. McLean and Jesse Eyeman.

AH! SOLONS ASKED TO PAY

By Associated Press Dispatch.

Columbus, O., February 21.—In all committee meetings of both houses of the Legislature, speed-up programs were adopted today looking to a recess of the General Assembly on March 8 and final adjournment on March 20.

Committees are to be cleared of all important bills next week, it is said. Very few important measures remained to be acted upon, these few including appropriation measures, taxation and highway bills.

The taxation measure offered last night has been made a special order of business in the Senate for next Thursday.

In view of pending legislation which would prohibit the showing of such pictures, the House yesterday adopted a resolution requesting producers to exhibit the "Birth of a Nation" to members of the Legislature.

A representative of the company announced today that this would be impossible, but that members of the Legislature would be invited to see the film in Columbus at \$2 apiece.

WOMAN REFUSED AT WORKHOUSE

When Chief Moore conducted Mrs. Cora Underwood to the Xenia workhouse Wednesday morning after she was found guilty of drunk and disorderly conduct, the workhouse officials refused to accept the woman, holding that under the statute she could not be sent to a workhouse by a mayor or justice of the peace.

Chief Moore brought the woman back to this city and placed her in the county jail.

Wednesday afternoon he announced that he would place the woman on the train and send her out of the county to stay, or if she refused to stay, other steps of a more stringent character will be taken to mete out proper punishment.

TABERNACLE TO BE DISMANTLED EARLY NEXT WEEK

The Bromley tabernacle, which occupies the city lot on Market street, and also extends over a large portion of the alley on the west side, will be dismantled next week, the work probably beginning Monday and requiring several days to complete.

It is understood the lumber will be returned to those from whom it was purchased, having been rented or leased from the owners for use during the life of the tabernacle.

City officials will insist that the structure be removed without delay after the corn and auto show comes to an end. It is understood, on account of the fire dangers to which the huge shed is liable.

A. R. STOKESBURY BADLY INJURED IN B. & O. WRECK

Mr. A. R. Stokesbury, residing four miles east of this city, on the Waterloo pike, was badly injured in the B. & O. wreck east of Cambridge about noon Tuesday, when engineer William Floyd was instantly killed and Fireman Frank Scott was seriously scalded.

Mr. Stokesbury is a mail clerk and in company with Chas. Poulsen, of Columbus, was distributing mail in the steel mail car when the wreck occurred. He was thrown violently forward and again badly shaken up when the car turned over in the ditch. Mr. Stokesbury was painfully injured about the head and shoulders, and his companion had several ribs broken.

Arriving in this city on the delayed train late Tuesday night, Mr. Stokesbury was taken to his home where he was still unable to leave his bed Wednesday, although he expects to be able for duty within a few days.

The wreck occurred at a sharp curve and while the train was running to make up lost time. The train was flying over the rails at 55 to 60 miles per hour when the crash came.

Responsibility for the wreck is placed largely at the hands of the dead engineer, who is alleged to have run his train faster than he should while making the curve, in an effort to make up some ten minutes lost time.

In Social Circles

"An evening with the Brownings" was singularly appropriate and much enjoyed by the Browning Club women Tuesday night, with the President Mrs. Haldee Van Winkle Coffman in the chair.

The department of Literature presented the program, Mrs. Blanche McFadden, chairman.

Miss Jocelyn Bowen read beautifully, with excellent expression, "The Swan's Nest," followed by a brilliant concert number played by Miss Mary Edge.

Mrs. Elizabeth Carpenter held the club women in absorbed attention while she gave the wonderfully pathetic and dramatic poem of Mrs. Browning's "Mother and Poet," this is one of Mrs. Carpenter's master pieces and she gave an artistic interpretation to the tragedy of motherhood following the terrible Italian war of that period.

A splendid paper was presented by Miss Jean Howat on "The Bible in Literature," featuring the Bible in Epic history and literature. Especially effective was Miss Howat's analysis of "The Lord's Prayer" in literary form, giving added meaning to the prayer.

Miss Howat cited the Book of Deuteronomy as set apart for its oratory. The farewell of Moses is one of the most beautiful of the Bible's literary gems.

to the Dalbey property on Washington Avenue.

Mr. and Mrs. John E. Hale of Wilmington, were the guests of Mrs. Jennie Harvey and family Tuesday.

MORE THAN 450 MEMBERS ATTEND ANNUAL BANQUET

Event of Rare Enjoyment Surpasses Previous Feasts of the Fayette Fish and Game Association—74 New Members Added—Every Section of the County Represented.

What was generally conceded to have been the most enjoyable banquet of the three big annual feasts held by the Fish and Game Protective Association, was that of Tuesday night, when fully 450 members of the order assembled at the Pythian Castle hall and there partook of a banquet that was perfect in detail and faultlessly served by the three score waiters—members of the Association.

Every township in the county was well represented, and a number of visitors from other parts of the state were present, including Mr. George G. Tinkham, of Columbus, one of the foremost sportsmen in the United States and head of the largest sporting goods establishment in America; J. S. Sackett, of Columbus, who for many years has been an active deputy in the Fish and Game department of the state; Mr. R. H. Schryver, of Mt. Sterling; Mr. C. B. Griffith of the Columbus Dispatch, and others.

All day Tuesday a corps of workers labored like Trojans in preparing for the big feast, with Chas. Allen setting the pace—and he proved some pacemaker, according to those who labored with him throughout the day and evening.

Early in the evening the big crowd assembled at the Pythian Castle, and the main lodge room was thrown open for their reception. For an hour or more, while all were assembling, the hall buzzed with jokes and good humor generally as the big membership of the Association became better acquainted and mingled together socially. One of the chief musicians was suddenly taken ill and the music planned for the evening could not be furnished.

Before the supper hour the clerks were busy receiving new members and dues, and 74 new men were added to the list, bringing the total membership up to 564 members, every one of whom is regarded as an active one and contributes his portion of energy toward making the association one of the best in the state and nation.

At the appointed hour the magic word "supper" nearly caused a stampede, for a great many of the fellows had cultivated ravenous appetites with a view to doing full justice to the big feast to be set before them.

In the huge dining room every available foot of space was occupied by tables, with snow-white covers, brilliant candelabra, sparkling silver and beautifully decorated with fern and cut flowers, huge carnations being distributed as favors.

The great crowd of diners "fell to" with a will and every man from the smallest to the largest and from the oldest to the youngest, praised the cuts and the prompt manner in which they were served, the three-score waiters moving like clock-work and doing their work so well that they were roundly complimented, the chief and his assistants coming in for a liberal share of the praise.

After all had eaten until they were content to let the other fellow have all that remained, cigars were lighted and Mr. Clarence Craig, as toastmaster of the evening, started the ball to rolling in a lively manner with a short talk, in which he proved himself an adept in the art, and during the remainder of the evening he never permitted interest to lag—if the speaker called upon did his part while on the floor.

Mr. Tinkham delivered the chief address of the evening, praising the Fayette county association for being awake to the needs of the day and aiding in obtaining what was desired by true sportsmen.

Mr. Sackett, during the course of an interesting talk, announced that Mr. Frank Hard, deputy game warden, had been placed on a regular salary and would be Fayette's deputy from now onward. This drew forth much applause.

Mr. Schryver, Mr. Griffith, Mr. Brownell, and the president of the association, Mr. W. H. Icenhower, also delivered short addresses.

The entire affair was one of utmost enjoyment to the more than 450 men participating. It is fully conceded that the net banquet, a year hence, is a mighty long time to wait for the repetition of such a pleasurable event.

CLEVELAND GROWS IN PROMINENCE

By Associated Press Dispatch.
Cleveland, O., February 21.—Cleveland is fast becoming the financial center of the Middle West, according to Harry T. Hall, former state superintendent of banks.

Hall says Cleveland depositors are drawing more than \$1,000,000 a month in interest from banks, that resources of Cleveland's banks now aggregate more than \$500,000,000 and that total resources of Cleveland's state banks are 45 per cent of the total resources of all Ohio state banks. The savings deposits in the thirty Cleveland state banks are sixty per cent of the total in all state institutions.

MAY START PROBE EARLY NEXT WEEK

(By American Press)
Chicago, Feb. 21.—It was announced that the federal government's investigation into the food problem will open in Chicago soon, probably next week. Much evidence bearing on the food situation is said to have been gathered by agents of the department of justice and ready for presentation to the commission. Some of it is said to have been heard by grand juries.

T. P. Miller, president of the newly organized Fruit and Vegetable Shippers' association, said that no relief was in sight and that only diminished consumption could lower prices.

"There are only 750 cars of potatoes in the whole state of Colorado now," said Mr. Miller. "There should be at this season 3,000 cars. Idaho has only 1,200 cars, Oregon 250 and Washington 100, which is about one-tenth of their normal supply. And this supply is being rapidly shipped out. Many farmers, tempted by high prices, have sold their seed potatoes, and the result may be decreased acreage this year."

Everybody Keep the Home Dollar Moving Pay-Up Week

IN one of the Pay-Up Week campaigns in a western city an ordinary silver dollar was labeled "The Home Dollar." Everybody was asked to keep it moving, not to send it out of town, and to report to whom he paid it. Everybody was surprised how busy that little round dollar was. It paid hundreds of dollar debts and finally got back where it started. If one dollar kept in circulation at home can do so much for a community, what if all the dollars are kept busy that way? Think it over.

If you have \$50 in your pocket and you owe \$50 you know that the \$50 you have in your pocket is not rightfully yours. If you cannot afford to pay all of the \$50 that you owe at least pay part of it. If you think that when you have money and you owe it you have a right to retain it until you are good and ready to pay, men who owe you money have a right to think the same way.

IT IS THIS GENERAL PROPOSITION THAT PAY-UP WEEK SEEKS TO REMEDY. IF YOU PROMISE A MERCHANT, IF YOU PROMISE A FRIEND, TO MAKE GOOD A CERTAIN SUM ON A CERTAIN DATE YOU SHOULD MEAN WHAT YOU SAY. A MAN WHO WOULD NOT THINK OF BREAKING A SOCIAL ENGAGEMENT WILL BREAK A FINANCIAL ENGAGEMENT OR PROMISE AND THINK NOTHING OF IT. FOR YEARS IT HAS BEEN CONSIDERED ALL RIGHT TO TAKE YOUR TIME PAYING A DEBT.

This theory is all wrong. Pay-Up Week is a start in a general remedial plan. If worked out properly it will prove one of the best things that this community ever has had.

DON'T TAKE LIGHTLY THIS PAY-UP WEEK.
It means much to the community.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

SCHOOL BILLS SCHEDULED FOR SIDING

General Assembly to Adjourn for the Week—Some Proposals to Come Up.

By Associated Press Dispatch.

Columbus, O., February 21.—On account of tomorrow being a legal holiday (Washington's birthday) the General Assembly was expected to adjourn for the week today.

This will leave only two weeks in which to complete the work of the session, according to the administration program which calls for a recess on March 8 and final adjournment on March 20. The only important bills passed thus far are the Reynolds bill granting presidential suffrage to women, the initiated bill excluding private liability insurance companies from competition with the state workmen's compensation fund, the Blausier bill placing quail in the song bird list and bills providing for the rotation of names on the primary ballot and separating state and national tickets on the ballot in presidential election years.

Many bills affecting the schools are to be sidetracked along with scores of other bills on various subjects it is said. State officers of the Junior Order, United American Mechanics appeared before the Senate committee on common schools this week to urge passage of the Palmer bill providing for free text books in the schools. This bill differs from many former measures on the same subject in that it leaves it up to the voters of any school district whether they shall provide free text books for the pupils.

The public health committee of the House will hold a public hearing tonight on the Terrell bill to permit Christian Science practitioners to practice their faith and accept fees for service without being subject to regulation of the state medical board. Opponents of the measure will present their arguments against the bill at a meeting next Tuesday night.

Walter Brown, of Toledo, former leader of the Progressive party in Ohio, enrolled as a lobbyist this week representing the Toledo Humane Society of which he is president. Brown and other representatives of the humane societies objected to the several bills introduced proposing a general license for all dogs in the state on the grounds that it will deprive them of revenues which they now receive from the dog fund. The dog bills were introduced in the interest of the sheep industry. Representatives of the state grange said a law licensing all dogs would result in killing off many dogs which are not listed for taxation now.

A supreme court decision may be necessary to determine whether a Virginia partridge is a quail or not, in the passage of the Blausier bill placing quail in the song bird class, the law was amended removing the Virginia partridge from the protected list and it is now claimed that the Virginia partridge is nothing more nor less than the familiar Bob White.

Stewart L. Tatum, of Springfield, chairman of the taxation committee of the Ohio Municipal League, is preparing another bill for relief of debt-burdened Ohio cities, both previous measures introduced by Senator Tor

OHIO LAW RELATIVE TO THE DESECRATION OF THE FLAG

SECTION 12396. Whoever prints, paints or places a word, figure, mark, picture or design, upon a flag, standard, color or ensign of the United States, or the State of Ohio, or caused it to be done, or exposes and causes to be exposed, such flag, standard, color or ensign upon which is printed, painted or placed, or to which is attached or appended a word, figure, mark, picture or design, or manufactures or has in possession an article of merchandise upon which is placed or attached a representation of such flag, standard, color or ensign or publicly mutilates, defiles, defaces, or casts contempt upon such flag, standard, color or ensign shall be fined not more than one hundred dollars, or imprisoned not more than thirty days, or both. (95, v. 305, § 1.)

SEC. 12397. The words "flag," "standard," "color" or "ensign" as used in the next preceding section shall include any flag, standard, color or ensign; or a picture or representation thereof, made of or represented on any substance, and purporting to be a flag, standard, color or ensign of the United States, or the State of Ohio, or a picture or representation thereof, upon which shall be shown the colors, the stars, and the stripes in any number thereof, or which might appear to represent a flag, standard, color or ensign of the United States or State of Ohio. (95, v. 305, § 2.)

SEC. 12398. The next two preceding sections shall not apply to an act permitted by the statutes of the United States or by the United States army and navy regulations, nor shall they apply to a newspaper, periodical, book, pamphlet, circular, certificate, diploma, warrant or commission of appointment to office, society, lodge or emblem, ornamental picture, or stationery for use in correspondence, on which shall be printed, painted or placed said flag disconnected from an advertisement.

rell of Cleveland having been abandoned because it was considered impossible for them to pass the House. The new bill will be less drastic, it is said, and will not interfere with the limitations of the Smith one per cent tax law.

McGilvery, State Normal School; and school superintendents from all of the larger cities of the state.

HE LONGED FOR THE PHILIPPINES

(By American Press)

Chicago, Feb. 21.—Weary of handling the Mexican problem and dealing with what he used to refer to as the "son-of-a-gunistas," Major General Frederick A. Funston facetiously expressed the hope that he might return to the Philippines. In one of the last letters he ever wrote. The letter was received by Colonel George K. Hunter, inspector general of the central department. "We are still plugging away at the job down here and I confess for one that I am getting tired of it," wrote General Funston. "I hope I can go some place where I will never again see a Mexican or hear of one. I think the job of governor general of the Philippines will just about suit me."

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Easier, Quicker and Without the Blister

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of a pleasant white ointment. It takes the place of out-of-date mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, cold, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, muscle pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

Growing Girls and Boys

Every physical or mental act that is performed uses up millions upon millions of red corpuscles of the blood. The demand is enormous and continuous. Is it any wonder that the active boy and girl should manifest this need by hunger? Proper food is required so that the system may form new red corpuscles.

HEMO is a concentrated food made with the idea of supplying many of the elements needed in assisting nature to rebuild old blood cells and to manufacture new ones. It is so pleasing to the taste, so easy to assimilate, and so well tolerated by the stomach that a minimum amount of effort by the digestive system is required in converting the food elements into red blood corpuscles.

It is an ideal lunch for the boy or girl, or a pleasing beverage at meal time. Its use will convince you. Makes a delicious food drink by simply adding water.

We suggest that you try a 50c package with our guarantee of satisfaction.
